

# INDUSTRIAL PROPERTY

NV delivers minimal disruption with maximum return.

## Background

ABC Supply Co., Inc. is a major, private American roofing supply company based in Beloit, Wisconsin.

ABC Supply is a distributor of windows, gutters, and siding for residential and commercial buildings and is the largest roofing and vinyl siding wholesale distributor in the United States.

## Two Major Challenges

### INSURANCE NEGOTIATIONS

ABC Supply located in Cheverly Maryland, was impacted by a significant hail storm causing damage to their 100,000 sf. roof. ABC Supply needed expert guidance to navigate through the complicated insurance process and we were able to put the roof on for no charge to the customer except for the deposit. The insurance company paid for the entire roof.

### LOGISTICAL OBSTACLES

ABC Supply needed a solution to meet the daily operational demands of a busy distribution center with minimal disruption to hundreds of commercial vehicles moving in and out of the property. This environment created serious safety conditions requiring strict safety guidelines for vehicle traffic patterns and roofers to help navigate the project.

## Results

*This was going to be a potential nightmare given the location demands and insurance negotiations. NV Roofing exceed my expectations in every way.*

– Jeremy Crawford, Managing Partner

- NV helped negotiate full insurance claim payment
- NV completed the job in less than four months with minimal disruption
- NV delivered job on budget and ahead of schedule
- Updated ISO requirements
- NV designed and engineered the entire scope of work
